## **Research Associate – Dynamics of Active Biological Systems**

The Laboratory of Soft and Living Materials at IIT Gandhinagar invites applications for a Research Associate (RA) position to work on a project focused on Enzyme-Driven Active Matter for Controlled Intracellular Transport and Delivery. This position is available immediately, offering an exciting opportunity for a highly motivated researcher to join a dynamic and interdisciplinary team.

**Job Description:** The selected candidate will lead experimental studies on enzyme-driven active matter systems, focusing on their applications in intracellular transport and targeted delivery. This role includes designing and executing experiments, developing and managing cell culture facilities, and collaborating within a multidisciplinary team of biologists, engineers, and physicists. The successful candidate will also mentor graduate and undergraduate students, support the development of grant proposals, and foster productive research collaborations.

**Eligibility:** Candidates must hold a PhD in Physics, Chemistry, Biophysics, Biochemistry, or a related field; candidates who have submitted their doctoral thesis are also eligible to apply. A strong publication record in relevant research areas is required. The ideal candidate should have experience in cell biology, biochemistry, both in vivo and ex vivo protein and enzyme studies, along with proficiency in various microscopic and spectroscopic characterization techniques. Excellent written and oral communication skills, along with the ability to work independently and collaboratively, are essential. We are looking for an enthusiastic, self-motivated individual with a high level of attention to detail.

**Appointment Details:** This appointment is initially for six months, with the possibility of extension based on performance and availability of funding. The consolidated monthly salary is Rs. 54,200. Candidates should be prepared to join within two weeks of receiving an offer.

**Application Process:** Interested candidates are encouraged to apply via this [Google Form](#). While the position will remain open until filled, priority will be given to applications received by 20 October 2025. Applications from candidates whose expertise does not align with the job description will not be considered. Only candidates whose qualifications and experience closely match the position requirements will be invited for an interview. Meeting the eligibility criteria does not guarantee an interview.
